Size of table: 1,5 x 1,2 x 1,5 m

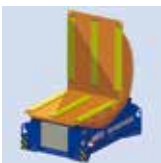

Size 3: **16 up to 30t**
Size of table: 2 x 1,5 x 2 m

Product options

V-shaped platform

V-shaped elements similar to plates made of plastic in order to prevent the coils in horizontal axis from rolling down. Can be screwed onto the table surface. Can be exchanged or retrofitted later.

PU-Covers

Plate from polyurethane can be slid onto the table surface by rails. Can be combined freely. Can be exchanged or retrofitted later.

Clearances

Freely selectable clearances in the table surface for easy loading and unloading.

Integrated spring cable reel

Body made of aluminium, cable routing with reels, length of cable 15 m.

Safety kits

Contact bars

Contact bars at the upper side of the base frame cutting off the turnover movement in case of danger of clamping or squeezing.

Fence with safety light barriers

Safety fence, can be easily installed at the site. Operation (turn forward, turn back, stop) by control key at the fence post.
